

At the Cincinnati Waldorf School (CWS), the health of our students is always a priority and concern. CWS follows all immunization requirements put in place by the Ohio Department of Health, and the Ohio Department of Education. As such, CWS documents the immunizations of each of our students and reports aggregate data to the Ohio Department of Health. We encourage our parents to consider their social and civic responsibility as members of the greater Cincinnati community when making decisions regarding immunization, and we recognize that the decision to immunize children is one made by parents in consultation with their family physician.
